

IN THE ABSTRACT:

Please enter this application with the Abstract as it appears in the enclosed English language re-translation of the original and published Abstract. Similar to the above request concerning the title, the translation of the Abstract as shown in PCT Publication No. WO/2004/062914 was done at the IB, and our Japanese associate and translator has indicated that the translation of the Abstract as published is not accurate.

The Abstract as it appears on the attached English language re-translation is the more accurate and faithful translation of the original Abstract as it was filed in the PCT International application, and it is therefore requested that the Abstract be changed to this re-translated Abstract that more accurately identifies this invention, and as it has been faithfully re-translated by our Japanese associate and translator.
